AmendX

Your Amendment, Executed.

AmendX is a comprehensive, concierge-level service that **manages the full lifecycle of Loan Amendment activity** for the loan market. Fully integrated into the Debtdomain platform, AmendX operates as a managed service, executed by the ClearPar team. The service centralizes and streamlines every step of the process: from **amendment setup through final voting**; allowing agent and operations teams **to offload the most time-consuming and risk-sensitive tasks**.

AmendX prepares and distributes amendment documents for lender execution, provides direct customer service support to lenders to ensure they can successfully apply their signatures, and delivers ongoing reporting to agents and arrangers on participation and progress. The team manages follow-up outreach to lenders, manually reviews any signature pages not completed digitally, and compiles a complete and accurate final vote tracker and report.

By combining structured workflows, secure technology, and dedicated operational oversight, **AmendX reduces manual workload, minimizes operational risk, and ensures every amendment is executed accurately, efficiently, and with full transparency**.

What We Do for You:

- Receive amendment request
- Manage amendment setup
- Launch amendment to lenders
- Send and manage all lender notifications
- Track and chase pending lender votes
- Update amendment status throughout each phase
- Validate signature pages and ensure accuracy
- Prepare final tracker and distribute executed documents

Upon completion, we deliver a final vote tracker back to the Agent.

AmendX isn't just a tool, it's a full-service solution. You give us the amendment, and we manage everything through to execution.

Your Amendment, Executed.
