

# Directory of Chemical Producers

Your tool to identify chemical manufacturers,  
plant locations and products.

## Make Better Decisions

With thousands of global chemical manufacturers, it is important to have a single and reliable source to help you quickly find the information you need.

- Who manufactures a specific chemical? Where is the production site located?
- What chemicals are made at a specific plant location?
- Where does a company manufacture chemicals globally?
- Who are their chemical manufacturing subsidiaries and joint ventures? What chemicals are made by these companies?

## The Right Tool

For over 50 years, S&P Global Commodity Insights Chemical's Directory of Producers (DCP) has been delivering comprehensive, accurate and timely coverage of the chemical industry. Marketing, Sales, Business, Procurement and Distribution Managers look to the DCP to keep informed about chemical manufacturers, their plant locations and chemical products.

The Directory of Chemical Producers is the right choice for:

- Identifying chemical manufacturers and plant locations globally
- Profiling companies by chemicals produced and ownership
- Determining which producers are integrated upstream for raw materials and downstream for derivatives
- Analyzing what markets your competition operates in
- Evaluating chemical production on a plant-by-plant basis
- Understanding capacity for over 250 chemicals

## Express and Advanced Search Functionality Accelerates and Simplifies Your Work

You can access the extensive information within the Directory of Chemical Producers using the S&P Global Commodity Insights Connect platform. Conduct simple searches by company name, chemical name, CAS number, plant location, and filter by producers or manufacturers for a specific country covered under East Asia, Europe, Middle East & Africa, and South & Central America.
