WPC 2027: The Complete Chemical Picture

S&P Global Energy

Monday, March 08	Tuesday, March 09	Wednesday, March 10	Thursday, March 11
Know the Market	**Shape the Future**		**Know the Market**
S&P Global Market Assessments and Outlooks	**Executive Conference** *Including topics:* Global Macro and Geopolitics Executive Leadership Insights	**China Chemicals: What Comes After Scale?**	**Materials for Future Industry** *Key Topics:* What Materials Power AI? The Industrial Supply Chains Behind Data Centres The Future of Advanced Manufacturing	**Training Day** *Training Courses:* Petrochemical Industry Fundamentals" Petrochemicals – Adding Value By Going "Downstream" Specialty Chemicals & Critical Materials – Powering AI, Electrification, and Defense Security and Sustainability in Chemicals Chemical Project Economics: Turning Molecules to Profits
Mid-morning Break and Innovation Stage	Mid-morning Break and Innovation Stage	Mid-morning Break and Innovation Stage		
Polymers **Feedstocks and Integration** **Emerging Process Technologies**	Energy Security and Feedstocks Global Trade & Regional Dynamics	**Trade Flow and Supply Chain Resiliency** **Circularity and Economics**		
Networking Lunch and Showcase at the Innovation Stage	Networking Lunch and Showcase at the Innovation Stage	Networking Lunch and Showcase at the Innovation Stage		
Lunchtime Featured Session	Lunchtime Featured Session	Lunchtime Featured Session		
Olefins and Derivatives **Aromatics and Derivatives** **Specialty Chemicals**	Capital Allocation Innovation and Technology	**Capital Discipline** **AI in Chemicals: Enabling Performance, Driving Demand**		
Meet the Experts Networking Session		Meet the Experts Networking Session		
	Evening Reception		**Port Houston Boat Tour**
